The student's sister and friends - more agitated and hormonal than usual - find little solace in Dante's *Inferno*. And as Larry's dreams intensify, a shocking secret is exposed. A secret that will change everything. Searing yet surprisingly funny, *THE DREAM OF THE BURNING BOY* is about finding the strength to move on... and the courage to live without regret. RATED PG-13 for language. Trigger Warning: This play deals with death and grief. [More info.](#)

reach Net Zero carbon dioxide emissions by 2050 only if we triple our investment in renewable energy, which is equal to a \$4 trillion investment worldwide before the year 2030. This enormous shift will pave the way for significant economic activity, new technology and innovation.

You can be part of the change or left behind.

In the past two decades, higher education institutions have led the charge for sweeping changes to reduce greenhouse gas emissions and mitigate climate change. Most recently, 75 universities called for the United States to cut carbon emissions by 50% by 2030 with a goal of getting to Net Zero by 2050.

At PIVOT, you'll have the opportunity to learn from these higher education leaders about how they are creating a Net Zero future on campus, and the tools, tactics, and strategies they are implementing to bring about that change.

Don't get caught off guard by the drastic changes of the new energy economy. Attend PIVOT and learn from your peers to understand how you can prepare for a Net Zero future.

NEW! MONTHLY VIRTUAL LEARNING & DEVELOPMENT SERIES
FROM SINCLAIR WORKFORCE DEVELOPMENT

Notice what motivates your employees and use that knowledge to leverage performance and positive results.

The ability to influence is an essential leadership skill. To influence is to have an impact on the behaviors, attitudes, opinions and choices of others. Influence is not to be confused with power or control.

A leader's ability to have influence with others is based on trust in that relationship. In this session, we will discuss how a leader's level of influence can improve or distract from the ability to sell ideas, build an individual's motivation, and get teams to implement or support decisions.
